Walworth County Health and Human Services Board

MEETING NOTICE
Wednesday, July 22, 2020
2:00 p.m.
County Board Room
Government Center – 100 W. Walworth
Elkhorn, Wisconsin

Kenneth Monroe – Chair, Kathy Ingersoll – Vice-Chair,
Brian Holt – Supervisor, Joseph H. Schaefer – Supervisor, Ryan G. Simons – Supervisor,
Monica Los - Citizen Representative, Penny Scheuerman - Citizen Representative,
Dr. Richard Terry – Citizen Representative, William Wucherer – Citizen Representative

NOTICE: DUE TO THE CONTINUING PUBLIC HEALTH EMERGENCY,
THIS MEETING IS PLANNED TO PROVIDE FOR REMOTE OR OFF-SITE ATTENDANCE
BY COMMITTEE MEMBERS.
The Walworth County Government Center remains open, but in-person attendance may be limited to
help ensure appropriate social distancing is observed. ALL INDIVIDUALS ARE STRONGLY
ENCOURAGED TO WATCH THE MEETING STREAMING LIVE AT
https://mediasite.co.walworth.wi.us/Mediasite/Play/76cec6ace5944dc59013c74f6e9e5c791d
Individuals wanting to provide a Public Comment can do so remotely by telephone, but must contact
the County Administrator’s Office at 262-741-4357 on the day of the meeting and at least 15 minutes
prior to the start of the meeting to obtain instructions.

(Posted in compliance with Sec. 19.84, Wis. Stats.) A quorum of the Lakeland Health Care
Center Board of Trustees will be in attendance.
It is possible that a quorum of the County Board or any of
its other committees could be in attendance at this meeting.

Agenda items are available upon request for the Department of Health and Human Services
or on the county’s web page (co.walworth.wi.us). The agenda packet, including
supporting documents, may be large, depending upon the number of enclosures.
Downloading it will require ample computer memory and may take significant time.

AGENDA
Note: all agenda items are subject to discussion and/or action.

1. Call to order
2. Roll call
3. Withdrawals from the agenda, if any
4. Agenda approval
5. Approval of minutes of last meeting(s):
   a) June 17, 2020 (Enclosure 1)

6. Public Comment Period

7. Unfinished business

8. New business
   a) Behavioral Health Division Presentation (Enclosure 2)
   b) Urban Rural Women’s Grant Update (Enclosure 3)
   c) Substance Abuse Block Grant Audit Findings (Enclosure 4)

9. Report(s)
   a) 2nd Quarter Write-Off Reports (Enclosure 5)
   b) COVID-19 Update (Enclosure 6)
      i. Phasing (Enclosure 6a)
      ii. Lake Geneva Site Testing (Enclosure 6b)

10. Correspondence

11. Announcements

12. Set/confirm next meeting date and time – September 16, 2020 at 2:00 p.m. The annual public hearing for Health and Human Services will be on this agenda.

13. Adjournment - The Health and Human Services Board will Adjourn

Submitted by: Kenneth Monroe – Chair, Health and Human Services Board
            Elizabeth Aldred – Director, Health and Human Services

posted: July 16, 2020
Memorandum

To: Walworth County Health & Human Services Board
From: Elizabeth Aldred, HHS Director
Date: July 14, 2020
RE: July 22, 2020 Health & Human Services Board Agenda

➢ This month we will continue our 2020 division presentations with a presentation on our Behavioral Health Division. This presentation will focus on the changes that have occurred in our practice in response to COVID-19. The presentation will also provide you with an update on the crisis redesign initiative, Comprehensive Community Support expansion and the women’s wrap program.
➢ The Department has been awarded $223,226 through the Urban Rural Women’s Substance Use Services grant. We are seeking board approval to accept these funds. We intend to use these funds to expand services to the jail as well as in the community.
➢ In October 2019, the State of Wisconsin conducted an onsite review of our Substance Abuse Block Grant. We received the findings of that visit on July 1, 2020. Included for your review is a summary of the findings and the recommendations made by the review team.
➢ We are seeking your approval of our second quarter write-offs. This quarter marks a significant reduction in the total write offs in comparison to the first quarter.
➢ This month’s COVID update will include three separate parts. We are including the phasing document that has been posted on our website and the matrix that is posted on the intranet. These documents serve as guidance for our community for their decision making related to our community’s preparedness to address this illness. We will also provide an update on the marketing plan for our community. Lastly we are including a flyer that outlines the next open testing site in our community.

The meeting was called to order at 2:00 p.m. by Chair Monroe.

Roll call was conducted. Members present either in person or remotely included Chair Kenneth Monroe; Vice Chair Kathy Ingersoll; Supervisors Brian Holt, Joseph H. Schaefer, and Ryan G. Simons; Citizen Representatives Monica Los, Penny Scheuerman, and Dr. Richard Terry. Citizen Representative William Wucherer was absent. A quorum was declared.

Others in Attendance:
County Board Supervisors: Jerry Grant and Nancy Russell
County Staff: County Administrator Mark W. Luberda; Director of Health & Human Services (HHS) Elizabeth Aldred; Aging & Disability Resource Center (ADRC) Director/Supervisor Byron Rachow; Long Term Care Division Manager Randy Kohl; Aging Director & Nutrition Program Supervisor Anne Prince; ADRC Governing Board Member Dave Koester; and Corporation Counsel Michael Cotter
Members of the Public: Jack Sorock

On motion by Vice Chair Ingersoll, second by Supervisor Holt, the agenda was approved with no withdrawals.

On motion by Supervisor Simons, second by Supervisor Schaefer, the minutes of May 20, 2020 meeting were approved.

Public Comment –
Jack Sorock of Walworth County attended the meeting via telephone and expressed his concerns regarding recently proposed Ord. No. 1217-06/20 – Creating Article VI Chapter 50 of the Walworth County Code of Ordinances Relating to Communicable Diseases. Sorock requested more transparency when creating ordinances that are consistent with state law or merely restate state law by including detailed citations.

Unfinished Business – There was none.

New Business
• Long Term Care Presentation
Director of Health & Human Services (HHS) Elizabeth Aldred introduced Long Term Care Division Manager Randy Kohl who gave a brief presentation entitled Walworth County Health and Human Services Long Term Care Division (Enclosure 2.) Aging & Disability Resource Center (ADRC) Governing Board Member Dave Koester gave a brief overview of the Options Counseling Training portion of the presentation. Discussion ensued.

• 2020-2023 Health and Human Services Strategic Plan
Aldred gave a brief overview of the Health and Human Services 2020-2023 Strategic Plan, which are the goals and objectives created by Aldred, Deputy Director of HHS Carlo Nevicosi, and managers of HHS. Aldred said the next step in the process is to work with the supervisors to develop work teams that will brainstorm and devise ways to move these objectives forward. Discussion ensued.
• Authorizing Changes to the Allocation of the HS Manager – Administrative Services Position
Aldred gave a brief overview of her Memorandum (Enclosure 4) and requested permission to move funding from the Health and Human Services budget to Lakeland Health Care Center as a result of the reallocation of the HS Manager -Administrative Services position. **Supervisor Holt offered a motion, second by Supervisor Simons, to authorize changes for the allocation of the HS Manager – Administrative Services Position. Motion carried 8-0.**

• 2020 Public Health CARES Funding for Epidemiology and Surveillance
Aldred stated Public Health is eligible to receive an additional $28,200 in CARES funding, which will be utilized to enhance epidemiology and surveillance capacity (Refer to Enclosure 5 for additional information.) Aldred requested permission to accept the funding. Walworth County Administrator Mark W. Luberda stated much of the state and federal funding due to COVID-19 has been limited to the end of this year; this specific source of grant money will have some carryover into year 2021. **Supervisor Ingersoll offered a motion, second by Supervisor Holt, to accept the CARES Funding for Epidemiology and Surveillance. Motion carried 8-0.**

**Report(s)**
• COVID-19 Update
Aldred referred to her Memorandum (Enclosure 6) and gave a brief updated on COVID-19. Discussion then focused on the urgency of promoting a public relations campaign that promotes personal and corporate responsibility; potential funding options; and previous campaign experience HHS has had with alternative methods of disseminating information.

**Correspondence** – There was none.

**Announcements** – There were none.

**Confirmation of Next Meeting** – The next meeting was confirmed for Wednesday, July 22, 2020 at 2:00 p.m.

**Adjournment**

On motion by Supervisor Simons, second by Supervisor Holt, Chair Monroe adjourned the meeting at 3:16 p.m.

Submitted by Patricia Sommers, Administrative Assistant. Meeting minutes are not considered final until approved by the Health and Human Services Board at the next regularly scheduled meeting.

Take away for the future

- Continuation of innovative service delivery
- Improved service integration
- Increased crisis services
- WWP continued?
Questions
MEMORANDUM

TO: Health and Human Services Board

FROM: Elizabeth Aldred

DATE: July 22, 2020

SUBJECT: Urban Rural Women’s Substance Use Services Grant

We are respectfully seeking authorization to accept funding for the Urban Rural Women’s Substance Use Services grant. We received the contract from the WI Department of Health Services on July 13, 2020. This grant provides up to $223,266 for calendar year 2020 with no required cost sharing or match.

With this grant, we will continue to expand our services to women with substance use disorders, particularly those who are involved in the criminal justice system. HHS has a long history of collaborating with law enforcement to provide behavioral health services for inmates in the jail. This partnership has been a success and we have worked with the leadership at the jail to develop a shared vision for a comprehensive set of services targeting inmates with addictions. Among other things, this grant offers us an opportunity to provide additional services to a high-risk, underserved population.

Our goal is to provide assessment and treatment to female inmates and to utilize grant-funded resources to enhance discharge planning with the Department of Corrections in order to link women with treatment services upon their release, including transition to residential treatment as appropriate.

"Walworth County is an Equal Opportunity Employer"
MEMORANDUM

TO: Health and Human Services Board

FROM: Elizabeth Aldred

DATE: July 22, 2020

SUBJECT: Substance Abuse Block Grant (SABG) Community Aids Contracts Compliance and Monitoring Summary

On October 23, 2019, WCDHHS participated in a routine compliance monitoring and site visit with the Wisconsin Department of Health Services (DHS) for the purpose of reviewing compliance with the Substance Abuse Block Grant (SABG) Community Aids Contracts. The Department received the findings from that review on July 1, 2020.

In sum, the state DHS team was very complimentary of the programs and services provided. They commented that Walworth County DHHS has an efficient process in place for initially screening and referring consumers for intake and further assessment of possible substance use disorders. Also, consumers are able to access treatment services almost immediately without being placed on wait lists. Further, they noted that the county uses an excellent, evidence-based array of screening, assessment and treatment services models.

Recommendations for continued improvement include developing additional strategies to increase consumer engagement in Substance Use Disorder Treatment, including adopting specialized outreach models that strengthen the likelihood of participation. Also, to minimize potential errors in reporting, DHS recommended establishing a policy that more specifically details which consumer services should be billed to which grant. This includes having the public health unit complete reporting for prevention activities.

Finally, with respect to vendor contracts, DHS recommended incorporating into county policy the requirement that the federal System for Award Management (SAM) database system be checked to ensure that prospective vendors are not debarred from receiving SABG funds. They also noted that the Department needs to ensure the purchase of service contract language with vendors for SUD services aligns with various SABG program requirements, including updating the Audit Requirements language.

"Walworth County is an Equal Opportunity Employer"
Summary of Findings and Recommendations – DHS Contract Administrator to fill out

1.) Summarize below the most significant findings and highlights made from this site visit and from related activities and communications with the contractor agency.

- The Walworth County Department of Health & Human Services (DHHS) employs steps that seem to promote an efficient process for initially screening and referring consumers for intake and further assessment of possible substance use disorders. Two crisis intervention specialists conduct most of the screening and referrals of consumers for assessments and placement into treatment and services. Consumers are able to access treatment services almost immediately without being placed on wait lists. Agency staff note that the county has not placed any consumers on wait lists over the past several years. Few consumers are placed in residential treatment, while the county utilizes detoxification programs in Dane and Milwaukee counties. There are not any residential or detox programs within Walworth County.

- Walworth County DHHS uses an excellent, evidence-based array of screening, assessment and treatment services models, which include: Living in Balance, Recovery Management Groups, MET/CBT 5, Seeking Safety, Relapse Prevention Model (a/k/a Core Group), Cognitive Behavioral Therapy, Dialectical Behavior Therapy, Functional Family Therapy, Trauma-focused Cognitive Behavioral Therapy, Motivational Enhancement Therapy, and Solution Focused Therapy. (The last several of these were listed in the County’s Policy & Procedure Manual for DHS 35, 75.03 and 75.13 services.)

- Walworth County staff noted the high number of consumers who do not show up at appointments. One explanation is that ASAM assessments result in treatment recommendations that many consumers consider to be too stringent and do not accept. The 2019 Data Snapshot Report for the county included a Documented Service End Reasons Table; that table showed that in 2017, 45 consumers withdrew from services against staff advice, the number declined slightly to 33 consumers in 2018.

2.) List below all recommendations and program revisions that you are suggesting to the county agency based on this site visit and related activities:

- **DHS staff recommend that Walworth Co. develop strategies to increase the level of consumer engagement in SUD treatment, and to consider requesting technical support through DHS for assistance with developing those strategies.** DHS currently contracts with UW-Milwaukee, Center for Urban Population Health to provide technical assistance and support services to grant recipients for SUD treatment needs. We would help Walworth Co. set up a technical assistance project with the Center. Technical support could also consist of participating in a NIATx rapid cycle change project (within the UW Center for Health Enhancement Systems Studies) designed to implement steps that lead to fewer consumer withdrawals from services.

- **DHS staff also recommend that Walworth County seek technical assistance through DHS and UW-Milwaukee’s Center for Urban Population Health in the following areas: (1) to develop a scientifically sound outreach model to encourage persons who inject drugs and other consumers to seek SUD treatment, in compliance with SABG program requirement under 45 CFR Section 96.126; (2) discussions with the DHS evaluation team on the reporting of PPS data to resolve inconsistencies with the data reported in the SABG Annual Reports and other instruments; and (3) the recruitment of staff, especially with recruiting persons from different racial/ethnic backgrounds.** DHS staff are available to discuss and help facilitate the planning and delivery of technical assistance projects.

- Site visit discussions referenced consumers with co-occurring needs, as well as services that could potentially be billed against the MHBG Community Aids grant, the Women’s Wrap-Around Program grant, or Comprehensive Community Services (CCS) grant. In order to minimize uncertainty and possible billing of an inappropriate funding source, Walworth County should develop written policy that specifies the process for determining: (1) the criteria to be met for placing consumers into programs and services under each funding source; and (2) the criteria for billing programs and services against the SABG Community Aids grant and other funding sources. For example, the written policy would codify that for women receiving clinical
services, those services would be billed against the SABG grant, while for women receiving case management, those services would be billed against the Women’s Wrap-Around grant or CCS grant.

- When selecting vendors and preparing annual purchase of service contracts with vendors for SUD services, Walworth County must check the federal System for Award Management (SAM) database system to ensure that prospective vendors are not debarred from receiving SABG funds. The County should adopt written language into the contracting policies and procedures referencing a check of the SAM database.

- Purchase of service contract language with vendors for SUD services must include various SABG program requirements. One option is for Walworth Co. to use the Exhibit III language for the State County Contract Appendix for Profiles 545, 546 and 570, and attach or incorporate that exhibit into the purchase of service contract. The Exhibit III language includes the SABG program requirements and restrictions. In addition, Walworth County must add language within the purchase of service contracts that requires sub-contractors to comply with SABG program requirements, and describes the process that the county will use to monitor such compliance. This process should include the submission of periodic written progress reports by sub-contractors that summarize services and activities provided and outcomes achieved. DHS staff will share examples of such language that Walworth County might consider using for the purchase of service contracts. These additional contract terms could be included within existing Section 3.7 (Assessing Performance in Delivery of Services) or Section 18.3 (Monitoring of Provider Services). DHS staff will also forward additional possible terms and language for the Walworth Co. DHSS to consider using for purchase of service contracts, and to provide further guidance and technical support as requested by the county.

- SAP-SIS reporting of prevention activities and expenditures by Walworth County is generally complete and found by DHS staff to be accurate, year-by-year. In order to make the SAP-SIS annual report process more efficient and less likely to omit data or information due to the current process, DHS recommends that the county’s public health unit directly complete and submit the SAP-SIS reports annually. In addition, one or more county prevention staff should be designated as a supervisor or user in SAP-SIS, so that they can review the prevention data gathered by public health staff before the data is submitted into SAP-SIS.

- During the 10/23/19 site visit, DHS staff noted that the Section 5 Audit Requirements language found in the purchase of service contracts should be updated to reflect the most current standards and requirements. We are sending, by separate attachment, the Audit Requirements language currently used by DHS in its contracts with counties and other grant recipients. Please consult with your Corporation Counsel’s office to determine how the updated audit requirements language can best be incorporated into Walworth County’s purchase of services contracts.

- The response to Section V, Question No. 34 lists credentials for some of the Walworth Co. DHSS staff. Please also provide DHS with the SUD or mental health worker credentials for Francis Thomas, Holli Wilke, Sam Sanders and Rachel Soderberg.

The Findings and Recommendations described above are based on my Site Visit:

Memorandum

To: Walworth County Health and Human Services Board
From: Carlo Nevicosi, Deputy Director
Date: July 14, 2020
RE: COVID-19 Update

Marketing

Anticipating a busy Fourth of July weekend, Public Health launched a marketing campaign centered on the theme of personal and business responsibility. Our material strongly promoted the message that “Our community’s health relies on all of us to make smart choices.” We engaged Coyote Ridge, a small marketing agency in Burlington, to help design materials and develop a strategy. Our efforts resulted in the following:

1. The purchase of spots on ten billboards that ran from July 3rd through July 11th generating 140,000 estimated views. Many of these were near the Illinois/Wisconsin Border.

2. The development of Facebook posts that were “boosted” resulting in 24,000 views. These materials were received favorably by Walworth County Economic Development Alliance and were widely shared by area chambers of commerce.

3. An email blast sent to Visit Lake Geneva’s 50,000 email subscribers.

4. The purchase 200 radio spots on local FM stations.

The department will be working with members of the Emergency Operations Committee (EOC) to create a centralized theme for the next installment of our marketing and messaging plan.
**Phased Guidance**

On July 6th, Public Health released its Phased Guidance. This document provides updated recommendations for a variety of businesses, organizations, and sectors in the community. Along with the phased guidance, Public Health is monitoring a number of key indicators to determine when it is advisable for businesses and organizations to move forward or backward. The key indicators evaluate Walworth County’s trends in cases, the capacity of our healthcare systems, and the ability of Public Health to quickly follow-up on confirmed COVID-19 cases. Current data suggests that businesses and organizations follow “Phase 2” guidance.

**School Reopening**

Public Health has met several times with area school administrators. We have provided support and guidance as they develop their individual reopening plans. In these meetings, Public Health has encouraged schools to return to in-person instruction as much as safely possible.

**Masks/Face Coverings**

Public Health has received much feedback from both sides of the face covering issue. At this time, Public Health is supportive of the use of face coverings, especially when physical distancing is not possible, but is not proposing or exploring mask mandates. Regional partners Ozaukee, Washington, Jefferson, Racine and Kenosha counties have directly confirmed that they also are not pursuing public mask mandates. A recent Milwaukee Journal Sentinel report identified Dane, Ashland, and Bayfield counties, as well as the cities of Milwaukee, Green Bay, Shorewood, and Glendale as communities that have either implemented or are strongly considering mask mandates.
Walworth County COVID-19 Phased Guidance
Revised 7/2/2020

This document provides broad guidance for recovery from COVID-19 in our community. Walworth County encourages organizations and individuals to consider this guidance and apply it where able. Organizations should feel empowered to implement solutions that best meet their needs and should develop plans to adjust practices in the event of another rise in COVID-19 cases.

These recommendations follow a phased structure to encourage our community to move towards a new normal safely and incrementally. Walworth County Public Health will be looking at a variety of Key Indicators to determine when it is advised to move into the next phase. The Key Indicators and Walworth County’s current status for each of them can be found at our website. COVID-19 is an evolving public health situation that will be regularly monitored and evaluated.

The recommendations in this document are broken down by sector and type of organization. Every setting is unique and will call for different strategies to protect customers, clients, and staff. We anticipate that our business and community leaders will follow these guidelines and implement strategies to best protect our community.

COVID-19 has made it clear how intertwined our health is with that of our fellow community members. When we act for the safety and well-being of our neighbors, it benefits our entire community. Together, and in partnership across public and private sectors, we can work towards overcoming this unprecedented public health situation.

Monitoring will occur throughout the phases & Walworth County may move back or forward a phase based on most recent data at any point

Public Health Recommendations for all Phases
- Practice physical distancing of 6 feet or more when in public.
- Use simple cloth face coverings as an additional, voluntary public health measure; instructions on making a cloth face covering are available from the CDC. You can also see flyers for making cloth face coverings: How to make a cloth face covering without sewing and How to make a cloth face covering using a bandana.
- Wash your hands often with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol. Avoid touching your eyes, nose, and mouth with unwashed hands.
Businesses:

- Encourage physical distancing. Keep customers 6 feet from each other.
- Limit the number of workers present on premises to no more than is necessary to operate.
- Adopt protocols to routinely clean and disinfect. Plan for enhanced cleaning in the event of a positive COVID-19 case in the business.
- Discontinue use of water fountains/ bubblers. Utilize contactless bottle fill stations or single use cups.
- Consider creating designated work/business hours only for vulnerable populations and those at higher risk.
- Clearly communicate through social media, newsletters, and signage the safety steps each business is taking.
- Clearly and quickly inform your employees and wider community of any policy changes.
- Post signage at business to encourage:
  - Washing of hands; gloves do NOT replace proper hand hygiene and can transmit disease from one surface to another, including to yourself and others.
  - The practice of physical distancing of 6 feet or more.
  - That individuals should NOT go to the business if they feel sick or have come into contact with someone who feels or has felt sick.
- Post all signage in multiple languages (for example, English, Spanish, Hmong, Somali, Lao).
- Commonly touched surfaces should be cleaned and disinfected regularly (for example, gates, railings, water spigots, tables, doorknobs).
- Provide proper cleaning and sanitizing measures for both employees and customers. See: How to build a hand-washing station for $20.
- Provide hand sanitizer if a washing station is not possible.
- Cleaning materials to sanitize commonly touched surfaces such as spray bottles with a bleach mixture of 5 tablespoons bleach per gallon of water or 4 teaspoons bleach per quart of water.
- Consider postponing large group gatherings or events unless physical distancing of 6 feet or more and proper sanitation can be in place for spectators/guests.

Employers:

- Pre-screen employees for symptoms prior to starting shift using the Walworth County Employer/Employee Screening Tool.
- Do NOT allow symptomatic people to work. Send them home if they arrive at work sick.
- Encourage staff to wear a mask or face covering.
- Provide the opportunity for staff to wash hands often (or provide hand sanitizer).
- Encourage all staff to cover coughs and sneezes using elbows (not hands).
- Practice physical distancing and stay at least 6 feet from other people whenever possible. Encourage physical distancing for customers/patrons.
- Promote telework options for nonessential or vulnerable employees.
- Promote physical distancing in the workplace and utilize disinfection guidelines per the CDC.
- Clean and disinfect high-use areas or shared equipment multiple times per day.
- Establish disinfection protocols in the event of a positive COVID-19 case.
- Consider special accommodations for personnel who are members of a vulnerable population.
- Consider expanding sick leave/FMLA.
- Utilize communications tools found in the Wisconsin Department of Health Services Employer Toolkit.

### Essential Infrastructure

**Additional Guidance:**
- Wisconsin Economic Development Corporation: [https://wedc.org/reopen-guidelines/](https://wedc.org/reopen-guidelines/)

### Agriculture, healthcare, transportation, manufacturing, construction

Open during all phases with proper health & safety measures required.

### Businesses, Workplaces, Retail

Long Term Care Facilities (Nursing Homes), due to the high risk COVID-19 poses to older individuals, the following recommendations remain in place for Safer at Home and Phases 1-4. Refer to DHS and CMS Guidance for Best Practices during all phases:
- No outside visitors, with exceptions for compassionate care (consider window or virtual visits)
- Limited group activities and communal dining
- Masks encouraged for staff members
- Limit non-medically necessary trips outside of the facility

</tr>
</tbody>
</table>

These Key Indicators were selected to best measure our local capacity to contain and slow the spread of COVID-19. They consider elements of the Wisconsin Department of Health Services Badger Bounce Back metrics, but do not directly match those metrics. Both these Key Indicators and the statewide Badger Bounce Back metrics should be considered.
