RE: LHCC Crisis Pay Premium

Lakeland Health Care Center

Our nation is facing a serious shortage of health care workers. Lakeland Health Care Center's work force is depleted and exhausted. With this memo and accompanying resolution and ordinance, we are proposing instituting a temporary crisis pay premium for hourly nurses and Certified Nursing Assistants (CNAs). This memo outlines our rationale for the proposal and our plans for funding.

This past summer, the County Board of Supervisors authorized increases in pay for LHCC staff, specifically for positions that have proven difficult to fill. We believe that these changes helped us stabilize our staffing. For the second half of 2021, we were able to bring new employees on at a rate roughly equal to the rate we were losing them. However, other area facilities have raised their own pay rates and in addition, have been able to offer sizeable sign-on bonuses and other incentives to retain existing staff and attract new workers.

Our staffing situation has deteriorated very quickly in the past several weeks. Three CNAs resigned (two leaving for the Aurora system). Five care staff are on continuous medical leave and another seven are on intermittent leave. As a result, staff have been asked to work extra shifts and forgo time off. Floor nurses are handling CNA duties and members of the nurse leadership team are providing direct resident care. The consequence of this is that our remaining staff lack the support they need to provide excellent care while avoiding burnout.

Direct Care Hours provided by Nursing Leadership (non-floor staff)	
10/01/2021 – 12/31/2021 (4 th quarter 2021)	92.5 hours
01/01/2022 – 02/10/2022 (1 st quarter 2022)	240.75 hours

For months, we have closely monitored admissions to ensure that we have sufficient staffing capacity to provide the level of care our residents deserve. Our census hovers around 75, although we have sufficient referrals to easily fill all 90

of our licensed beds. We have depressed our census by restricting admission for short-term rehab stays. The vast majority of our census is now comprised of long-term residents. Further decreases in census moving forward are dependent upon resident attrition.

Our proposal is to institute a \$30 per hour pay premium for hourly staff assigned to shifts that the Administrator, Director of Nursing, or Assistant Director of Nursing deem a “crisis shift”. We propose instituting this for from February 11, 2022 through July 31, 2022. This will provide us time to complete our currently scheduled Crisis Nurse Aide training program and also allows for additional decreases in census.

We project that this proposal will cost \$127,000. In January, we were awarded \$131,088 in Provider Relief Fund Phase 4 Funding. The resolution accepting the funds authorizes LHCC to use the funding for staff, costs, overtime, and pay premiums.

We plan to provide the Board monthly updates on the results of this proposal. Additionally, in the coming weeks, we will begin exploring the feasibility of sign-on bonuses as well as pay premiums for salaried nursing staff that are working crisis shifts.
