Subject: Board Meeting today- Finance Committee

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello Ms. Pike,

I am unable to make it to the meeting this afternoon, but I have a comment that I would like to be read to the board.

In regards to two issues on the Finance Committees's agenda, I have two requests asking you to vote NO.

#2 - Res. No 06-04/22 - Please vote NO. I do not want any injections (including MRNA vaccines) being advertised or administered in homes and using tax payer dollars to fund either situation. The Covid vaccine is readily available to anyone who wishes to receive it. Using our tax dollars in order to advertise or administer something that citizens are already able to obtain for free if they choose is a waste of valuable resources. As more time passes, we are finding out more and more serious side effects from the injection. VAERS has thousands of cases of "adverse events" since the COVID-19 vaccination effort began in late 2020. Pushing the vaccine on more people would be a dangerous effort and tax payer dollars should not be used to do so.

#3 - Res. No. 07-04/22 - Please vote NO on the issue of hiring a full time assistant to the administrator in order to implement these types of programs as well as other duties. There are so many other ways to use tax payer dollars that would have a much greater positive impact on Walworth County. Again, this would be a tremendous waste of valuable resources for our county.

Thank you.

Sincerely,
Melissa Bollinger
(LaFayette Township)
