Temporary Free Meal Offering Update

September 23, 2020

Dear Lakeland Families,

We recently learned that the temporary free meal offerings (SSO) that were originally effective Monday, September 14, 2020, can be applied retroactively to the first day of school. This means that we have reversed all meal charges from September 1, 2020-September 13, 2020, for every student regardless of individual eligibility.

Following are a few very important reminders regarding this temporary program:

- This free lunch offering is for a limited time. The program runs through December 31, 2020 **or** when the program is cancelled, whichever is sooner.
- One lunch including one milk will be available, free of charge to all students attending face-to-face learning. We are exploring options to serve our distant learners as well and will keep you posted.
- Charges for additional entrée items and/or milk remain in effect at the following rates: additional entrée EC-Elem = \$3.00 | MS-LSYou = \$3.50 | additional milk = \$.50
- Payments are required for existing lunch account balances. These balances are carried over from the 2019-2020 school year. A statement has been mailed to each household with the current amount owed highlighted in **yellow**.

We are excited to be able to apply this free meal benefit retroactively and, as always, are available to discuss payment plans and address your questions and concerns.

Thank you,

Deb Funderburk
