

Lakeland School

**School Conditional Health Practices
for the
2022-2023 School Year**

Presented to the
Walworth County Children With Disabilities Education Board
on July 22, 2020

Updated 9/14/2021
Updated 1/5/2022
Updated 7/20/2022

Dear Lakeland School Families and Staff,

Lakeland School of Walworth County is committed to supporting our families and staff, providing a safe instructional environment, and delivering the best possible student experience. Every reasonable attempt will be made to uphold our long-standing commitment to meeting the individual needs of our students.

This summer, we have outlined a 4-phase plan that we will use to guide our year, depending on the rate of illness in the school and county. Please take some time to read through the Phases that are listed in this document to know how Lakeland School will proceed. We will be starting the year in **Phase 3**. Our goal is to move to Phase 4, with no restrictions as time goes on. Please keep in mind that Phase 4 and Phase 1 have not been outlined yet in this Conditional Health Practices document. A goal of ours this school year is to outline those two phases.

Phase 4: In Person Learning, masks optional, no quarantine or isolation, open campus for families and community members (to be developed during the 22-23 school year).

Phase 3: In Person Learning, masks optional, with quarantine and isolation, open campus for families and community members.

Phase 2: In Person Learning, masks required, closed campus.

Phase 1: Remote Learning due to high transmission (to be reviewed during the 22-23 school year).

The health and safety of students, employees, and community members is the utmost priority as we return for the 2022-2023 school year. Lakeland School continues to utilize data provided by the [Centers for Disease Control](#), the State of Wisconsin, Walworth County Board of Supervisors, Walworth County Health Department, and the Department of Public Instruction (DPI) to guide the decision-making processes related to the school.

We ask all members of the school's community to embrace the guidelines contained in this document and to contribute to a school environment that is safe for all. The guidelines mentioned in this document are meant to serve as universal practices to apply in various situations throughout our school and school year. Lakeland School will notify you if we were to move to a different phase.

Lakeland School
W3905 County Road NN
Elkhorn, WI 53121
262.741.4118 tel
262.741.4135 fax

We are looking forward to welcoming you back into the building for all traditional events at Lakeland School as we grow back together in unity. It's going to be a great year!

Best Regards,

Lakeland School Administrative Team

This document is subject to updates, changes, and additions as further information, clarifications, and requirements are received.

PHASE 3

Preventive Safety Measures

Personal Protective Equipment

Face Coverings

Wearing a well-fitting mask reduces the risk of spreading respiratory viruses such as COVID-19 and influenza. For the 2022-2023 school year, universal masking within Lakeland School will be optional. Any individual who chooses to wear a mask should be supported in their decision to do so, regardless of the COVID-19 Community Level. Face coverings will be made available upon request for those who choose to wear them.

Underlying Health Conditions / Extenuating Circumstances Related to COVID-19

Employees who may be particularly vulnerable to the effects of COVID-19 should contact their supervisor or administrator and Human Resources Department (262-741-7950) to address any safety or health concerns. Specific guidance for staff will be available from Human Resources / Public Health.

Personal Hygiene

Coughing and Sneezing

Cover your mouth and nose with a tissue when you cough or sneeze. If you don't have a tissue, cough or sneeze into your elbow, not your hands. Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with hand sanitizer.

Healthy Hand Hygiene

Wash hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use a hand sanitizer. Avoid touching your eyes, nose, and mouth with unwashed hands.

Hand Sanitizing

If soap and water are not readily available, hand sanitizer that contains at least 60% alcohol will be used. Cover all surfaces of your hands and rub them together until they feel dry. Hand sanitizer will be provided and used in all classrooms, department offices, and other key areas in the building.

Cleaning and Disinfecting

Classrooms

Classrooms are equipped with basic cleaning stations, including sanitizing wipes, soap, and hand sanitizer. Classrooms will also be cleaned daily (or more often as needed) by custodial staff.

Staff Offices and Individually Assigned Workspaces

Cleaning and disinfecting offices and individually assigned workspaces will be the responsibility of the employee assigned to that space. Cleaning supplies will be provided to departments in order to complete basic cleaning and disinfecting of surfaces. To request additional cleaning supplies, contact the front office at 741-4115 or send email to tmccullough@lakelandschool-walco.org. Our custodial service is not allowed to move any personal items (pictures, keys, clothing, etc). in office spaces.

Public Spaces

Commonly touched surfaces in all public spaces will continue to be cleaned and disinfected by custodial staff on an ongoing basis. This includes common areas such as primary entrances, hallways, and restrooms.

Other Areas

Specific questions or concerns about cleaning and disinfecting practices should be directed to the School Principal, Trish McCullough, at 741-4115 or email tmccullough@lakelandschool-walco.org

Meetings, Programs, and Events

As we start the school year, we look forward to welcoming parents and community members back on campus. Lakeland School will be considered an “Open campus.” Visitors will be allowed on campus for traditional events. All IEP meetings will be offered as both in person and virtual formats. District tours will be available in person by appointment. If parents wish to speak with an administrator, an appointment can be made to meet on campus by contacting Lakeland School front office staff.

Travel

Lakeland will continue to follow the latest travel guidelines put out by the CDC. Visit the [Wisconsin Department of Health Services](#) and the [Centers for Disease Control and Prevention](#) prior to travel for the latest travel guidance.

Screening and Reporting

Temperature Checks Procedure and Staffing Requirements

During Phase 3, temperature checks will be done on any student or staff member who may have symptoms concerning infection. Daily monitoring of temperatures will not be part of the classroom routine. Any student that is found to have a fever of 100.0 or greater will be isolated from their peers until they are able to be picked up from school. Depending on the number and type of symptoms present, the plan for return will be determined by the school nurse.

Isolation Room Establishment, Requirements, and Staffing

The predetermined isolation room is a designated location and will be separate from the health room.

The classroom teacher will review with the student why they are going to the isolation room, social stories are available as needed. A designated staff member will be assigned to supervise students while in the predetermined isolation room awaiting pick up by the parent or guardian, should the need arise. The staff member will be provided with PPE and Professional Development as appropriate.

Testing

Walworth County may have limited capabilities to do testing for symptomatic students and employees. Free tests are available at various clinics and hospitals in the area. Individuals are strongly encouraged to use outside facilities as they are able. Information on testing sites can be obtained from the [Wisconsin Department of Health Services](#).

Employees and families of students who test positive or who have been notified of contact are required to notify Lakeland School (262-741-4118) and Walworth County Public Health Department (262-741-3362) in order to begin contact tracing to potentially exposed individuals.

Although PCR testing has been shown to be the most accurate in detecting the presence of COVID-19, Lakeland School will also accept the results of a rapid antigen test that is done at a testing site, for both students and staff. Home test results will not be accepted as a means to return to school or work.

Protocols for COVID-19 Positive

If it is determined that someone tested positive for COVID-19 in your department, you will receive notification through Skylert and email.

Quarantine

Quarantine is a strategy to prevent the transmission of COVID-19 by staying away from others when you've been a close contact to someone who has tested positive for COVID-19.

Transmission rates are significantly higher amongst family members living under the same roof; therefore, extra precautions are needed. Individuals who are up to date on their vaccinations who have a household exposure do not need to quarantine unless symptoms develop. They should continue to monitor for symptoms for 10 days following exposure. If symptoms develop they should isolate at home and get an appropriate COVID-19 test.

Individuals who are unvaccinated and have a household contact will be required to quarantine for 5 days from the last date of exposure to the positive person. If they are unable to completely isolate within the home, they must wait to start their quarantine period until the positive person's 5 days of isolation ends. If no symptoms develop after the 5 days of

quarantine they may return to school/work, and are recommended to wear a well-fitting mask for the following 5 days. If symptoms develop at any time during the 10 days following exposure, you must stay home, isolate, and obtain an appropriate COVID-19 test. If testing is negative, you may return once symptom free for at least 24 hours without the use of fever reducing medications.

For unvaccinated individuals who have had a positive PCR or Rapid Antigen test confirming COVID-19 within the past 90 days, quarantine is not necessary unless you develop symptoms. This is at the discretion of the Lakeland School Nurse.

Isolation

Isolation is used to separate people with confirmed or suspected COVID-19 from those without COVID-19.

People who are in isolation should stay home until it's safe for them to be around others. At home, anyone sick or infected should separate from others, stay in a specific "sick room" or area, and use a separate bathroom (if available).

Individuals who have had a confirmation of COVID-19 infection must remain out of the building until:

- They have had no fever for at least 24 hours, without the use of fever-reducing medication.

and

- At least 5 days have passed since the symptoms first appeared or from the date of a positive test (whichever happened first) and are currently symptom free. Symptoms may include:
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting
 - Diarrhea
 - This list does not include all possible symptoms. [CDC will continue to update this list](#) as we learn more about COVID-19.

School Environment

Lakeland School intends to be on campus for face-to-face instruction for the 2022-2023 school year, while preserving the health and safety of everyone in our classrooms and school building.

- Water fountains will be in full operation for students and staff
- School assemblies will be held
- Lunch will be provided in a family style format, served in the cafeteria
- All school events will be open to normal operations
- Swimming will be available to all students during Physical Education classes
- Students will be able to participate in Community Outings without restriction in consultation with the Building Principal and School Nurse. Outings will follow the protocol of the visited locations.

Employee Assistance

For information on the Employee Assistance Program, through EAP and the Walworth County Human Resources Department, [email Human Resources](#) or call 262-741-7950. These services are available to employees, their spouses or significant others, and their dependents.

Communication

Communication is a critical component of the Lakeland School Return Plan. Making sure that we are communicating key messages both internally and externally will be important as we work to build confidence in our school's ability to bring students and employees back to school in a safe way.

These communications will be developed by Lakeland School Administration in partnership with stakeholders across the fifteen Walworth County School Districts and in line with Walworth County communications and local, state, and national health guidelines, with an emphasis on health and safety information, best practices, and the idea of the social covenant to keep our community safe.

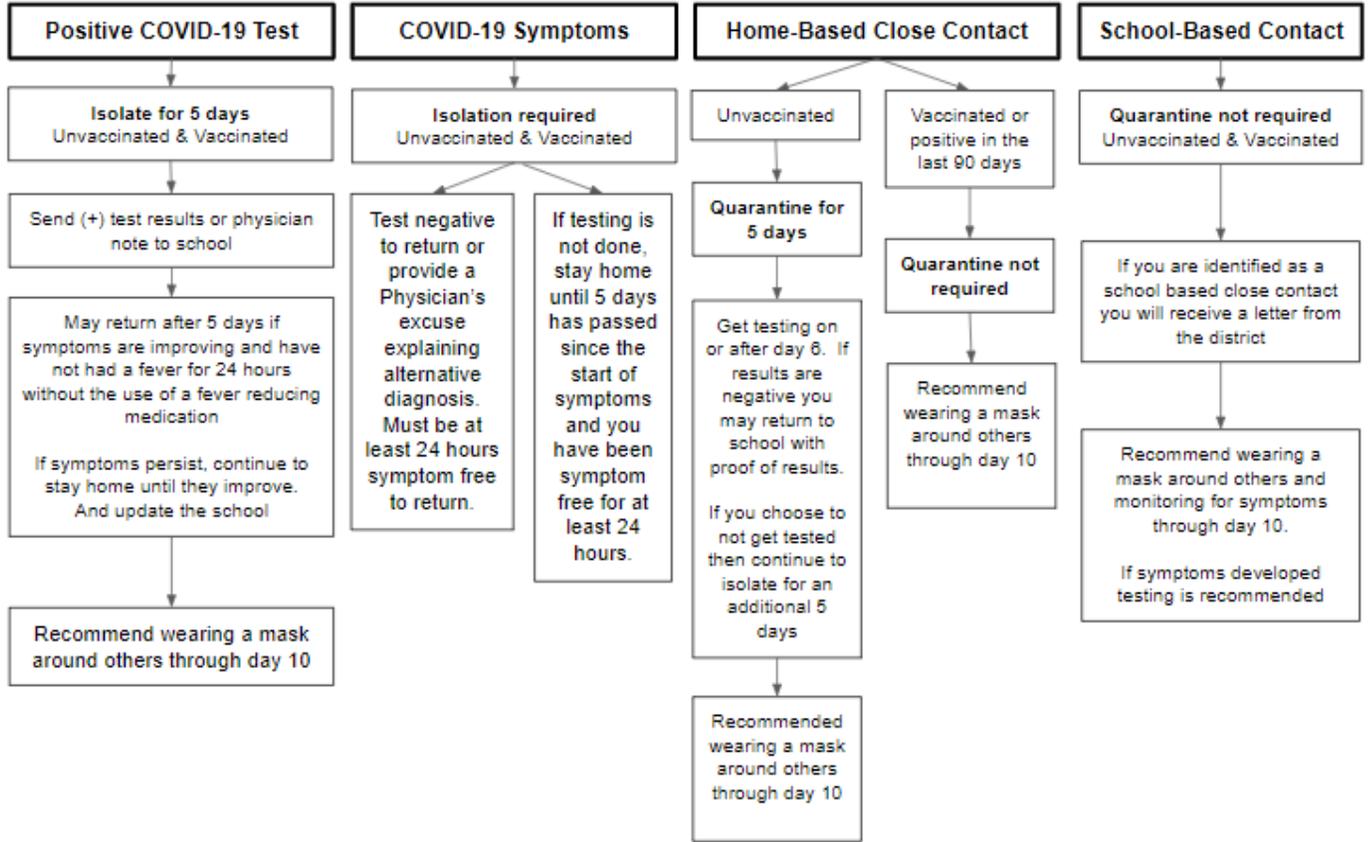

The [School Information on Coronavirus](#) website will serve as the central hub for information and will be updated regularly as appropriate. Additional communications will include broadcast emails and Skylerts to families and employees, targeted audience communications, and collaboration with traditional media.

Ongoing Review of Positivity Rates

The administrative team will be meeting every two weeks in collaboration with the Department of Health Services and School Nurse to determine the CDC Community Levels, staff, and student positivity rates (by department and whole school) to determine the need to move between phase 3 and 2. This change may require lengthened quarantine times, students and staff to eat lunch in the classroom, reinstating contact tracing, masks required for staff, and implementing a closed campus (no visitors allowed on the campus). Families and Staff will be notified by the school administration if there is a move to a different phase. CDEB has given the Director of Special Education the authority to move between the phases within this plan.

Chart 1- Lakeland School Isolation/ Quarantine Protocols Phase 3

Lakeland School Isolation/ Quarantine Protocols Phase 3

Transitional Phase 3:

As Lakeland School reviews COVID-19 data, certain restrictions may be put in place prior to going to Phase 2. Isolation and Quarantine times could move from 5 to 10 days, close contacts could be required to quarantine, students might eat lunch in their classroom, masks will be required for staff and recommended for students, and water fountains will be unavailable. Water bottles will be provided upon request, given available supply. Students are encouraged to bring in personal water bottles. The administrative team will be meeting every week in collaboration with the Department of Health Services and School Nurse to determine the county, staff, and student positivity rates (by department and whole school) to determine the need to move between phase 2 and 3.

PHASE 2

Preventive Safety Measures

Education and training will be provided regarding the preventive safety measures.

Social/Physical Distancing

The definition of social/physical distancing regarding COVID-19 is 3ft - 6ft in all directions. Social/physical distancing will be taught, practiced, and reinforced in all environments (both indoors and outdoors). However, our students' individual abilities and needs, such as feeding, self cares, therapy, and safety, may not allow for social/physical distancing at all times.

Personal Protective Equipment

Wearing face coverings will reduce the spread of infection by protecting you as well as those around you. Appropriate face coverings must cover both the nose and mouth.

Lakeland staff will be required to wear school provided face coverings regardless of vaccination status (masks and/or face shields). Staff face coverings will be required in all public areas, shared spaces in hallways, classrooms, and in school-related vehicles. Face coverings should also be worn outdoors when social distancing cannot be continuously maintained between individuals.

Employees who are unable to wear face coverings due to medical reasons may request accommodations through the Walworth County Human Resources Department at 262-741-7950 or walcohr@co.walworth.wi.us.

School staff will need to make considerations for the necessary PPE on a case-by-case basis, depending on the activity, physical proximity, and level of potential exposure throughout the day.

Students are not required to wear face masks.

Underlying Health Conditions / Extenuating Circumstances Related to COVID-19

Employees who may be particularly vulnerable to the effects of COVID-19 should contact their supervisor or administrator and Human Resources Department (262-741-7950) to address any safety or health concerns. Specific guidance for staff will be available from Human Resources / Public Health.

Personal Hygiene

Coughing and Sneezing

Cover your mouth and nose with a tissue when you cough or sneeze. If you don't have a tissue, cough or sneeze into your elbow, not your hands. Immediately wash your hands with

soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with hand sanitizer.

Healthy Hand Hygiene

Wash hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use a hand sanitizer. Avoid touching your eyes, nose, and mouth with unwashed hands.

Hand Sanitizing

If soap and water are not readily available, hand sanitizer that contains at least 60% alcohol will be used. Cover all surfaces of your hands and rub them together until they feel dry. Hand sanitizer will be provided and used in all classrooms, department offices, and other key areas in the building.

Cleaning and Disinfecting

Classrooms

Classrooms will be equipped with basic cleaning stations, including sanitizing wipes, disposable face coverings, and hand sanitizer. Individuals are encouraged to clean their personal space before and after use. Because of the highly transitional aspect of classrooms, individual precautions and responsibility will be paramount. Classrooms will also be cleaned daily (or more often as needed) by custodial staff.

Staff Offices and Individually Assigned Workspaces

Cleaning and disinfecting offices and individually assigned workspaces will be the responsibility of the employee assigned to that space. Cleaning supplies will be provided to departments in order to complete basic cleaning and disinfecting of surfaces. To request additional cleaning supplies, contact the front office at 741-4115 or send email to tmccullough@lakelandschool-walco.org. Our custodial service is not allowed to move any personal items (pictures, keys, clothing, etc.) in office spaces.

Public Spaces

Commonly touched surfaces in all public spaces will be cleaned and disinfected by custodial staff on an ongoing basis. This includes common areas such as primary entrances, hallways, and restrooms.

Other Areas

Specific questions or concerns about cleaning and disinfecting practices should be directed to the School Principal, Trish McCullough, at 741-4115 or email tmccullough@lakelandschool-walco.org

Meetings, Programs, and Events

All those planning Lakeland School meetings, programs, and events will use judgment when determining whether these activities can be held successfully while abiding by the social/physical distancing and personal protection guidelines. All school-led activities conducted on and off campus require reasonable efforts to be made to ensure compliance with a six-foot separation between individuals. This may require limiting the number of attendees by offering multiple event times or multiple event locations.

During Phase 2:

- No visitors will be allowed in the building.
- Pick up or drop off of all supplies/materials will require a scheduled time. Please contact the office at 262-741-4118.
- All meetings that include families, districts, and other outside agencies will be held virtually.
- District tours will be in person by appointment only.

Travel

All employees are encouraged to limit nonessential personal travel. Visit the [Wisconsin Department of Health Services](#) and the [Centers for Disease Control and Prevention](#) prior to travel for the latest travel guidance. Until further notice, employees must report any nonessential travel to their supervisors, as travel outside of Wisconsin or their state of residence may require a self-quarantine period upon return.

Families are encouraged to share any travel plans out of the state and country. Guidance from local state and federal health agencies will be considered in each individual's return to school plan.

Screening and Reporting

Daily Temperature Checks Procedure and Staffing Requirements

Temperatures for all staff will be taken each morning upon arrival in the classroom.

Designated staff will be available throughout the day to take temperatures of students during the instructional day, as necessary.

Staff will be provided with a temporal thermometer, training in the use of a temporal thermometer, and appropriate PPE.

If the temperature of the student is greater than or equal to 100.0° Fahrenheit, the student will be taken to the predetermined room for isolation, apart from other children and staff. Escorts will maintain 6 feet of social distancing. School Health Room staff will then follow the established protocols.

Isolation Room Establishment, Requirements, and Staffing

The predetermined isolation room is a designated location and will be separate from the health room.

A designated staff member will be assigned to supervise students while in the predetermined isolation room awaiting pick up by the parent or guardian, should the need arise. The staff member will be provided with a gown, gloves, and a face shield as appropriate. The staff member assigned will complete the training on COVID-19 and the use of Personal Protective Equipment (PPE).

Testing

Walworth County may have limited capabilities to do testing for symptomatic students and employees. Free tests are available at various clinics and hospitals in the area. Individuals are strongly encouraged to use outside facilities as they are able. Information on testing sites can be obtained from the [Wisconsin Department of Health Services](#).

Employees and families of students who test positive or who have been notified of contact are required to notify Lakeland School (262-741-4118) and Walworth County Public Health Department (262-741-3362) in order to begin contact tracing to potentially exposed individuals.

Protocols for Student Illness and Contact Tracing

Contact tracing is currently being facilitated through local health officials. The staff at [Walworth County Public Health Department](#) have undergone contact tracing training and are prepared to assist in this area if needed. If through contact tracing it is determined that a student or staff member has been in close contact with a confirmed positive individual, the following protocols will be followed.

Given the nature of our students and the population we serve, Lakeland School will follow the 10 day quarantine and isolation protocols as follows:

Quarantine

Quarantine if you have been in close contact (within 6 feet of someone for a cumulative total of 15 minutes or more over a 24-hour period) with someone who has COVID-19, unless you have been fully vaccinated*.

People who are fully vaccinated do NOT need to quarantine after contact with someone who had COVID-19, unless they have symptoms. Vaccinated people should wear a mask indoors in public for 10 days following exposure or until their test result is negative.

Unvaccinated people will need to quarantine for 10 days from the last date of contact with the positive individual.

All people should get tested 5-7 days after their exposure, even if they don't have symptoms

*Fully vaccinated is considered:

- Completed the two part series of Pfizer or Moderna vaccine
- Completed the primary series of J&J vaccine
- Has recovered from COVID-19 in the last 90 days

Isolation

Isolation is used to separate people infected with COVID-19 from those who are not infected.

People who are in isolation should stay home until it's safe for them to be around others. At home, anyone sick or infected should separate from others, stay in a specific "sick room" or area, and use a separate bathroom (if available).

For Anyone Who Has Been Around a Person with COVID-19

Anyone who has had close contact with someone with COVID-19 should stay home for 10 days after their last exposure to that person.

However, anyone who has had close contact with someone with COVID-19 and who meets the following criteria does NOT need to stay home.

- Fully vaccinated and shows no symptoms of COVID-19 or have tested positive for COVID-19 in the last 90 days.

However, fully vaccinated people should (should, has no special legal meaning/ shall, means mandatory) get tested 5-7 days after their exposure, although it is not required. Even if they do not have symptoms, vaccinated people with exposure should continue to wear a mask indoors while in public for 10 days following exposure or until their test result is negative.

Unvaccinated students or staff (who have not had COVID-19 in the last 90 days) will need to stay home and can do one of the following if they have come in close contact with an individual who has COVID-19:

- Take COVID test (PCR or Rapid- no home tests) 5-7 days after exposure, if negative, can return on day 8.
- OR**
- Forgo testing, and return after 10 days of quarantine, as long as no symptoms are present.

Individuals who have had a confirmation of COVID-19 infection must remain out of the building until:

- They have had no fever for at least 72 hours (three full days), without the use of fever-reducing medication.
- At least 10 days have passed since the symptoms first appeared and they are symptom-free. Symptoms may include:
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting
 - Diarrhea
 - This list does not include all possible symptoms. [CDC will continue to update this list](#) as we learn more about COVID-19.

Unvaccinated Staff or Students Who are Exposed Within Their Family Home

- Will need to quarantine for 10 days from the last day of close contact with the positive case in the home
- If unable to isolate within the home, the exposed individual will have to start their quarantine once their family members finishes their isolation period

Transmission rates are significantly higher amongst family members living under the same roof and extra precautions are needed.

Configuration of Spaces

All areas within the school will make reasonable efforts to ensure compliance with a 3ft- 6ft separation between individuals to correspond to current state guidelines. Reconfiguration of classroom spaces will be done to ensure social distancing is maintained inside the building, as well as outdoor spaces throughout the Lakeland School campus, in transportation provided, and in related service areas, and other learning spaces.

Barriers

Barriers or physical controls will be installed in areas where face-to-face interactions are required, such as the front office/reception. A physical barrier can be a means of reducing exposure to droplet exchange.

Traffic-flow Patterns

Physical barriers, closures, or one-way traffic patterns will be in place within the building and classrooms to limit potential exposures. Contact the administration to share suggested locations for traffic-flow changes.

Learning Environment

Lakeland School intends to maximize face-to-face instruction while preserving the health and safety of everyone in our classrooms and school building. In order to achieve that, we will follow social/physical distancing guidelines and require all employees and essential duty staff to wear face coverings in all classrooms and other areas of the building. Students will be encouraged to wear face coverings in all classrooms and other areas of the building.

Instructional Options --

Below are descriptions of the delivery formats that will be offered in Phase 2.

Face-to-Face Format

Students will attend school in-person, five days a week, with risk mitigation procedures in place. Classrooms and spaces within the building will be reorganized to maximize space. Students will move between classes in small groups with limited additional interaction throughout the day. Individual and sealed lunches will be served in the classroom. Students will be provided with a water bottle for use with sensor-activated refill stations at school. Traditional bubblers will be turned off.

Modified classroom seating layouts and class sizes for face-to-face teaching will fulfill social distancing and room capacity requirements following public health guidelines. To maintain these distances, seating and other furniture should not be removed or rearranged at any point during the school year. Refer to the Cleaning and Disinfecting section of this plan for additional information.

If at any time students are unable to attend, as in a typical school year, employees will work with the family to determine options for completing the work.

Distant Learning Format

Distant Learning is not an option.

Contingency Plans

All employees are expected to develop contingency plans for the following scenarios:

- An outbreak resulting in a temporary break (short-term or extended).
- Any circumstances that result in the need for 100% remote learning.
- Further reduction of class sizes due to federal or state guidelines.
- An employee's transition to distant learning due to a positive exposure or other related concern.

Work Environment

Staffing Options

Administration reserves the right to make staffing assignments, as needed. All employees should communicate health and safety concerns with administration and the Human Resources Department to make arrangements. Please see the Human Resources / Public Health document detailing this information.

Shared Workstations

All employees are asked to share the responsibilities of maintaining safe working conditions by frequently cleaning and disinfecting equipment and surfaces in shared working areas. See the Cleaning and Disinfecting section of this plan for more information.

Breaks and Meals

Break rooms and other shared spaces must maintain a safe social distance of six feet between individuals. Creating a break schedule for these areas should be considered to maintain safe social distance.

Employee Assistance

For information on the Employee Assistance Program, through EAP and the Walworth County Human Resources Department, [email Human Resources](#) or call 262-741-7950. These services are available to employees, their spouses or significant others, and their dependents.

Communication

Communication is a critical component of the Lakeland School Return Plan. Making sure that we are communicating key messages both internally and externally will be important as we work to build confidence in our school's ability to bring students and employees back to school in a safe way.

These communications will be developed by Lakeland School Administration in partnership with stakeholders across the fifteen Walworth County School Districts and in line with Walworth County communications and local, state, and national health guidelines, with an emphasis on health and safety information, best practices, and the idea of the social covenant to keep our community safe.

The [School Information on Coronavirus](#) website will serve as the central hub for information and will be updated regularly as appropriate. Additional communications will include broadcast emails and Skylerts to families and employees, social media updates, targeted audience communications, and collaboration with traditional media.

Signage

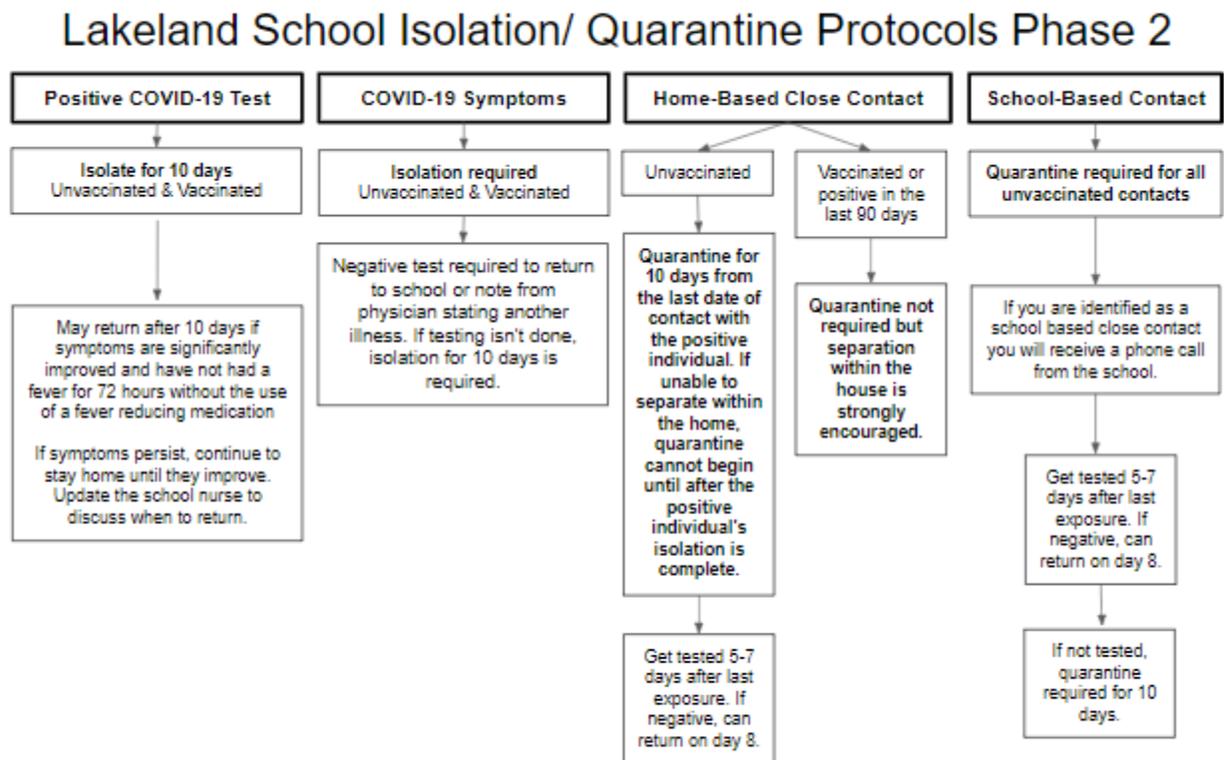

All signage pertaining to operational changes and social covenant and health practices will be consistent and follow the established procedure for design, approval, production, and posting. Signage may include, but is not limited to: directional arrows indicating which way people should be moving in the building to eliminate cross traffic, as well as reminders to wash hands, wear face coverings, and practice physical distance, etc.

Transportation

Bus Transportation

Seating on the bus will likely be assigned. Bus drivers will be encouraged to wear face masks when interacting with students. Sanitizing of buses will occur before and after each route.

Chart 2- Lakeland School Isolation/ Quarantine Protocols Phase 2

PHASE 1

In the event of a surge in COVID-19 cases, and as deemed necessary by the Department of Health and the Lakeland School Administrative team, the school will pivot to an all school Distant Learning plan. Students will be provided with chromebooks to learn synchronously and asynchronously while at home.

Here at Lakeland we will take every precautionary measure to keep our school from going into a remote learning situation, as we know that our students are best served while on campus and in person.

QUESTIONS?

For questions or comments related to the Lakeland School Conditional Health Practices, contact the Lakeland School 262-741-4118 or visit the [Lakeland School COVID-19 page](#).

Please watch your email and our website for further updates.
