

Following is a list of Free Meals offered to all children 18 and younger in your community during COVID-19 school closures.

We will continue to send updates as new locations develop.

Please complete surveys requested by the district school (links below) as soon as possible so that they may plan accordingly.

Meals can be picked up via drive thru and must be taken home to eat. Students are no longer required to be present.

Most locations are offering a combined lunch (for same day) and breakfast (for the following day) for one pick-up.
